VOL. IX. RENO, WASHOE COUNTY. NEVADA. THURSDAY. SEPTEMBER, 16, 1880. NO. 144.

Poisonous Cigarettes.

A Philadelphia physician recently analyzed one of a popular brand of cigarettes, and found opium mixed with the tobacco, and the paper whitened to look like rice paper by arsenic. Cigarette smoking, under the most favorable conditions, pure tobacco and rice paper, is a most pernicious practice, as cigarette smokers always inhale the smoke. When, in addition to nicotine, opium and arsenic fumes are deposited in the throat and lungs, it is an excellent time to cry "halt" to cigarette smoking, and obey the command, too. The object of mixing a slight proportion of opium with cigarette tobacco is a trade trick to increase and foster the desire for that kind smoking. To preach against the habit of smoking is utterly useless, a waste of both time and breath, but a reform can be accomplished in the manner of using tobacco, and the reform should be entered upon honestly and vigorously. Pipes and cigars, nearly harmless at worst, are elixir for the system compared with cigarettes.

A Baby Killed By a Rat.

READING, Pa., Sept. 6.—The family of Franklin Kantner, living near Womelsdorf, this county, were this morning aroused from their slumbers by the screams of their 4 months-old child. To their horror they found a rat biting the babe in the throat. The rat, hearing the approaching footsteps, jumped from the cradle and escaped. The child died of convulsions and loss of blood.

He is Not a Colonel.

From the Corsicano (Texas) Independent

We want it distinctly understood that there is one editor in Texas who is not a Colonel, and the first fool that adds that prefix to our name will certainly hear from us. We are serious about this.

A Husband's Remorse.

"How under Heavens am I to get along now?" was the regretful remark of shiftless Hank Monroe, of Lebanon, Mo., after he had, in a fit of anger, killed the wife who had long supported him.

Cotton and Iron.

From the Boston Post.

It will require about 75,000 miles of hoop iron to tie up the cotton crop, and the cost will be about $3,000,000 Thus a large cotton crop helps the iron trade both directly and indirectly.

The San Francisco manufacturer of a lotion advertises as follows:

He built a bower of leafy sprays
To shield his darling from the heat.
"Would we might live thus all our days,"
He said, reclining at her feet.
Alas, poor love-blind, foolish folk.
To hold of life so crude a notion!
The bower was built of poison oak,
And they had to use some Blank-blank's
lotion.

EDITORIAL NOTES.

To tell the truth, the squeal from Maine that the Fusionists carried the State with coin does not strike us pleasantly. If there has been money used improperly, why not have somebody indicted? Surely there can be some proof produced, and Maine ought to be a good place to enforce the law. If both parties used coin, and the Fusionists were too smart for the rest, it is no more manly to squeal than for a gambler who has been beaten at his own game. We would like to see the ballot purified by one or two convictions. It would do a world of good in this country just now.

"The trout in the Truckee are once more being destroyed by Nevada ranchmen. We hope the stream will never be restocked at any expense save that of the mean scoundrels who have twice destroyed the fish placed in it."

The above is from the *Stock Report*. Our esteemed contemporary has mistaken the name of the river in which the Nevada ranchmen are destroying the fish. The "mean scoundrels" whom it thus denounces dwell on the banks of the Humboldt.

Judge Goodwin of the Salt Lake *Tribune* tells a famous story of a night in a Spanish town when one man unaccountably and unexpectedly went home to his wife. In an hour the streets were full of men going home to their wives..

All during the war the first news of a battle gave victory to the Solid South. The official reports often came in very different. It looks as if that was the way they do down in Maine.

It is surprising that anyone needed to wait for an assay from Prof. Hanks to be convinced that Col. Tichenor and his process of extracting gold from Calistoga Springs water are humbugs.

In England during the last twelve months 643 cases came before the Divorce Court. Between five and six hundred marriages were dissolved. Many of the actions were brought on the ground of drunkenness.

The Republican primaries in Humboldt county will be held Monday, October 4, and the Convention will meet Tuesday, October 12.

Shoes and Hosiery.

The reign of the high French heel is nearly over and is replaced by lower heels and broader toes, the "common sense" shoes being one of the most popular among the best customers at the first-class houses. The black cloth-top shoe is most worn at present. A small bow finishes some of these at the center of the toxing. The French heels and box toes are still somewhat used for evening wear, but on all other occasions lower heels are seen.

The hosiery department has become one of great importance during the past four years in all dry goods establishments. A novelty in this line, which will certainly not become common, is the silk stocking with side insertions of medallions of point lace. They may be had at one house for $50 a pair. From this the prices range all the way down to $10 for silk hose, and at about this price may be had the Sarah Bernhardt, of black old gold.

At the Orleans railroad station in Paris the other day, 8,000 pilgrims were gathered for a trip to Lourdes. A large number were cripples and bedridden. The station was blocked up with stretchers and mattresses upon which emaciated and helpless forms were reclining. Babies abounded, and their wan and scared faces were pitiable. The incapable numbered one-fourth of the entire band.

A long bridge over the Volga, in Russia, has recently been completed. The width of the river is nearly a mile, and as it is liable to heavy spring floods, the piers, of which there are fourteen, had to be built 100 feet above mean water level, the depth of the river being more than 50 feet. The girders, 365 feet long and 20 wide, were riveted together on the right bank of the river, and then floated to their position.

Kinipple and Morris, London engineers, have been appointed to build a railroad in Newfoundland for the purpose of developing the mineral and agricultural resources of the island. The road is to be 300 miles in length. It will commence at St. John's and terminate at Green's Bay, to the north of the island, and in the vicinity of the principal mining districts, and will pass also on its route through good agricultural land for settlements.

J. Venstor, of Lakeview, 84 years of age, recently perished of thirst in the Oregon desert. His remains were found 16 miles from Lake Albert.

A fatal accident occurred September 4th on the Garcia river, Mendocino county. Daniel Philbert was hauling hay, and fell from the load, so that the shoe blocking the hind wheel passed over his neck, killing him instantly.

Walter Wilson, son of Mrs. E. G. Wilson, of Sebastopol, Sonoma county, was out hunting near Fort Ross last week. In pulling his gun toward him, muzzle foremost, it exploded. The charge carried away a piece of his cheek and his entire ear.

The Napa *Reporter* says that parties connected with Cole's circus got away with about a thousand dollars' worth of property belonging to citizens of Suisun the night they gave their performance there. Officers followed the troupe to Napa in hopes of recovering the stolen property, but were unsuccessful.

The New Racket.

Virginia Stage.

The "Racquette," which is evidently French for racket, is a new dance which is being introduced among fashionable dancers. It is described as looking like the lady trying to get around the gentleman, while he is trying to head her off, and as may be supposed, it is hard work and takes all the strength of the dancers to stand the racket.

At a social party recently given in a neighboring town the racquette appeared in the list of dances. A gentleman viewing the womanly proportions of a lady who had on just about half enough clothes, said: "I wonder where the rest of Miss Blank's clothes are?"

"Oh," responded the lady, "they are up stairs in the dressing room. She's stripped for the racquette."

At a recent meeting of German doctors interested in the treatment of insane persons, a paper was read by the Director of the Brunswick State Lunatic Asylum, in which he maintained that much of the increase of insanity in Germany is attributable to the excessive amount of work imposed upon the pupils in the national schools.

I Wish Everybody to Know.

Rev. George H. Thayer, an old citizen in this vicinity, known to every one as a most influential citizen, and Christian Minister of the M. E. Church, just this moment stopped in our store to say, "I wish everybody to know that I consider that both myself and wife owe our lives to Shiloh's Consumption Cure." It is having a tremendous sale over our counters and is giving perfect satisfaction in all cases of Lung Diseases, such as nothing else has done. Bourbon, Ind., May 15, 1878. Drs. Matchett & France. JOTTINGS

—There are 522 voters registered in this precinct.

— Prof. Cary of Virginia will lead the Reno brass band during Fair week.

—Solomon in all his glory was not arrayed like the customers of the White House.

— Should any local dramatic company desire to enact "Hamlet," the loan of a skull can be had from this office.

— No quotations can be given of any large sales of cattle recently. Beef cattle are worth from 4½ to 5 cents a pound in this market.

— L. W. Lee estimates the quantity of hay bailed in this valley last year at about 10,000 tons. This year it will be about 7,000 tons.

—The grand opening of millinery and French bonnets at Miss Harney's to-morrow and Saturday will cause a large attendance at the churches next Sunday.

—The Indians have great faith in the vitality of old Winnemucca. One was asked last evening if the old chief was still living. "Him all right, you bet," was the response.

— The M. E. Conference meets in Virginia next Thursday, Bishop Wiley presiding. A strong effort will be made to secure the Rev. Mr. McKelvey for another year by his congregation here.

Athletic Club.

The entertainment at the Athletic Club hall to-morrow night promises to be pleasant. The boys hope, by giving the public a practical idea of the work and object of the club, to obtain the interest and moral support of the community. The programme will be informal, and beside the regular class exercises, will include boxing, fencing, club-swinging and fancy turning. No invitations have been issued, but all friends of the club will be cordially welcomed. The ladies have manifested a desire to be present, and will be pleased to know that their company is especially solicited.

Be Quick About it.

Says the Carson *Appeal*: Congressman Daggett has left with Jasper Babcock two bushels of Siberian wheat done up in pound packages to distribute among the farmers. Any farmer who wants some of the wheat has but to send to the Secretary of State's office for it. This wheat came into Mr. Daggett's possession through the Department of Agriculture at Washington, every Congressman being entitled to a couple of bushels.

Death of Nina Varian.

News of the death of Miss Nina Varian was received here yesterday. She died at Liverpool, England, last Monday. Miss Varian was a young and beautiful actress of much dramatic talent. Her brother, C. S. Varian, left for San Francisco last night to consult with his mother regarding the disposition of the remains. It is probable that she will return with him to Reno.

A Large Drove of Cattle.

Six hundred head of cattle will arrive from the north this evening for shipment to Oakland to morrow. They have been purchased on the northern ranges by agents of Hayes, Carrick & Co. Thirty cars will be needed to transport them. They will be fed in Lee's corrals to-night, and shipped by him in the morning.

A Taste of Good Things.

J. A. Elliott, of Newcastle Cal., sends a box of grapes to this office, of the variety known as the White Muscat of Alexandria. Nothing could exceed the flavor and delicacy of this fine fruit. Mr. Elliott has an excellent vineyard and orchard and is able to fill orders of almost any size.

A CHANCE.

Running the Gazette's Presses by Water Power.

The printing in the GAZETTE office is now done by water power. The motor is a thirty-inch Backus water wheel of 2½ horse power. The water is supplied from the pipes of the Reno Water Co., whose reservoir has an elevation of 188 feet above the town. It enters the wheel through a nozzle with a diameter of ⅝ of an inch, flowing from a two-inch supply pipe. The wheel is firmly bedded in the ground outside the building, and the power is communicated to the presses by a series of shafts and pulleys. This water motor has been several days in use, and proves amply sufficient to run simultaneously a Potter No. 2 cylinder press and a "Nonpariel" quarter-medium job press. The waste water from the wheel is carried off to the river by a drain 500 yards long. The water motor has, so far, proved perfectly satisfactory. It obviates the danger from fire and explosion attending the use of steam, can hardly get out of order, is cheap and durable, and always ready for use. The simple turning of a wheel instantaneously supplies all the power desired, at full head. Cocks are provided for the thorough drainage of the wheel after using, so that it never need be clogged with ice. The water motor is just the thing for a printing office, where a sufficient head of water can be had.

The GAZETTE's large press was formerly run by the steam engine in a neighboring establishment, when that was in use, and at other times by hand. The muscular motor usually took the form of a Washoe Indian with a full head of whiskey on. These sources of energy proved uncertain and unsatisfactory, and hence the water motor was introduced.

Candelaria to Have a Railroad Before January.

The surveyors have returned from their recent extended trip over the line of the Carson & Colorado and are busy working up their field notes. The Carson *Times* says grading has been entirely completed to the second crossing of the Walker river, sixty-seven miles from Mound House, or nearly one-half the entire distance to Candelaria, and to a point twenty-eight miles this side of the proposed point of intersection of the Bodie wagon road and the railway at the southern end of Walker Lake. Five bridges have already been completed. The first is ninety feet long, over what is known as Birisan's Ditch, one mile south of Dayton. The next is two hundred feet long, thrown over the Carson river at Dayton. Over El Dorado Canyon, across the river from Dayton, is another, thirty feet in length. One of similar length has been built over Whitman Canyon, eighteen miles beyond Dayton, and one forty feet long over Churchill Canyon, four miles further on. Three more bridges will be required before Churchill Canyon can be passed; two in Mason's valley before crossing the Walker river; two after crossing the same stream, and two over the Walker itself. A large force of laborers is now at work grading along the shores of Walker Lake. The work is light and rapid progress is being made. It is confidently expected that the line will be completed through to Candelaria before the completion of the present year.

Peculiar Grasses.

A Honey Lake man was yesterday telling about a kind of spear grass that they have up north. He says that it will force its way through almost any obstacle lying on the ground. He has frequently seen apples and potatoes impaled on stalks of this grass, the grass having grown up through them. In one instance he knew of, several blades forced their way up through an inch plank that was lying on the ground.

Another curious kind of grass growing in Honey Lake valley is the "fox tail." Horses will never eat it, if they can find anything else, but sometimes take it when mixed with timothy and clover. Spears of the "fox tail" sometimes work their way into the flesh of the under jaw of a horse, and come out through the skin. These spears of grass often cause running sores which last for months.

Trial of the St. Clair Murder Case.

The case of Robert St. Clair, indicted for the murder of Patrick Tully, at Big Meadows, in Humboldt county, on the 28th of July last, was called on Monday afternoon in the District Court at Winnemucca. J. McMillin, acting District Attorney, and Judge Berry appeared as counsel for the prosecution, and S. S. Grass and M. S. Bonnifield for the defense. A jury was impanelled on Tuesday, and the trial was going forward yesterday.

Miss Harney respectfully invites the ladies of Reno and vicinity to attend her opening of fall millinery, at her rooms on Virginia St., Friday and Saturday, 17th and 18th of Sept. Miss Harney will have on exhibition an elegant assortment of French bonnets and trimmed hats. Do not fail to see them.

The Latest Phase.

Jones, of the Belleville Brewery, informs the *True Fissure* that the latest phase of Hancockism is to raise the finger and stand off the barkeepers for the drinks, and that if all the fellows who play that game were voters, the General would get a large majority in Candelaria.

THE MOSQUITO.

How He Abounds and Amuses Himself Down the River.

None can form any idea of what an annoyance and burden mosquitoes can become, by living in Reno, but a ride down the Truckee in a buggy, to Wadsworth, would give them all the information they would ever want. While the road is out in the wide valley, where the wind has a sweep, there is not so very much trouble, although if one stops he is surrounded by swarms as long as he stands still, but once the canyon is reached the little pests cover everything. A horse's neck is a favorite feeding place, and they hardly leave standing room there, and along the back, wherever the harness or the horse's tail does not disturb them. They fairly load themselves with blood, and are not disturbed by any thing short of being scraped off with a stick. When so scraped off they cover everything with blood. The annoyance to human beings unaccustomed to them is excessive. The insects bite every bit of skin exposed unless they are constantly driven off. They buzz about the ears, and dart into the eyes, and keep a man swinging a handkerchief all the time. If the victim has on low shoes it adds considerably to the interest of the situation. Most of the butchers and travelers wear veils to prevent them from becoming too familiar. The men on the track and the farmer's boys, however, seem to be proof against them. They let them swarm, and only object to too long a bite. At the houses the people build smudges and the smoke thins them out, though whether the mosquitoes are worse than the smoke, is not stated.

WAS IT A WAHOO?

The Strange and Strong-Smelling Animal Lately Killed in Modoc County.

An old hunter writes to the Modoc *Independent* from Dunn's Cove, that he and his dog have just killed a wild animal unlike anything he ever saw, and describing it, asks for information concerning the genus. The writer says: The well known Mr. Groves, an old hunter, and myself were hauling hay the other day, and my old hunting dog was heard to make a strange noise as though baying something. Knowing that he would take hold of anything he came across, I thought I would go and ascertain what it was. It was on a very rocky hill-side. Mr. Groves went with me. We had only our hay forks with us. When we came near the dog, he seemed very uneasy. The animal had secreted himself between two large rocks. When I got within six feet of the animal he growled fiercely and started for me, but luckily I stopped him with the fork. Mr. Groves, who was near, ran in with his fork, and we two, with the assistance of the dog, killed it. Groves escaped unhurt, while I had my pants and boots badly torn up and one foot badly mutilated. The scent of the animal was very offensive, and we could not save his hide. It measured five feet three inches from one track to the other, its tail about the length of its body, with a bunch of red hair on the tip; a stripe down the back about four inches; deep red stripes running with the ribs; his ears shaped like a hog's, standing straight out; two tusks two inches long, on each side of his mouth above and below; very ferocious.

Pleasant Valley.

On the V. & T. R. R., a few miles south of Steamboat Springs, the canyon of Steamboat creek widens out and leaves room for a little oasis, known as Pleasant Valley, which was among the first places in this State to be settled by the white men. In 1858 George Smith came in from Salt Lake and settled on one hundred and sixty acres of land, which he has continued to farm continuously ever since until this time. He has a nice orchard which will be 23 years old next spring, but he says the crop is not sure. The trees blossom well, but the fruit is killed two springs out of three by frost, after the apples get the size of a pea. Mr. Smith has four sons; three of them farmers. One of them lives with him. George S. Smith lives on the ranche adjoining on the north, which he owns, and where he is making a nice home for his old age. He has two nice children, a boy and a girl, who walk three miles to school every day. G. K. Ball joins the elder Smith on the south. He has quite a nice piece of land. Mr. Logan lies to the west. The valley gets water from Mt Rose direct. Their crop is alfalfa, but they raise considerable grain. The yield this year will be about 75 tons of wheat and oats. There are a good many grasshoppers, but the only thing they have eaten is a lot of young turnips. They are laying plenty of eggs.

Susanville's Views on the Railroad.

This is the way that a Susanville correspondent of the *Plumas National* writes concerning the Nevada and Oregon Railroad: "The railroad" is the thing that is agitating the "Neversweat" just now. Although the survey of the road went east of Honey lake—some twenty-five miles from Susanville—still the people of the town are trying to make it scatter, and have some of it reach the place. The "boss" of the road has gone East, but is expected back soon with two Saratoga trunks full of coin, and then? Plumas people can come over, put their hands in their pockets, open their mouths, and look at the road—when it is built.

REPUBLICAN NATIONAL PLATFORM.

lowing is the text of the resolutions adopted by the Republican National Convention on Saturday, June 5, 1880:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent bonds sold at 86, to that where four per cent bonds are eagerly sought at a premium. Under its administration railways have increased from 21,000 miles in 1860 to more than 84,000 miles in 1879. Our foreign trade has increased from $700,000,000 to $1,150,000,000 in the same time, and our exports, which were $20,000,000 less than our imports in 1860, were $264,000,000 more than our imports in 1879. Without resorting to loans it has, since the war closed, defrayed the ordinary expenses of government, besides the accruing interest on the public debt, and disbursed annually more than $30,000,000 for soldiers' pensions. It has paid $888,000,000 of the public debt, and by refunding the balance at lower rates, has reduced the annual interest charge from nearly $151,000,000 to less than $89,000,000. All the industries of the country have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the Republican party asks for the continued confidence and support of the people, and this convention submits for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

ENUMERATION OF PRINCIPLES.

First. We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved. That the peace regained should be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperiled. That the pensions promised should be paid. That the debt so much reduced should be extinguished by the full payment of every dollar thereof. That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged.

Second The Constitution of the United States is the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the power delegated and those reserved is to be determined by national and not by State tribunals.

Third The work of popular education is one left to the care of the several States, but it is the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the genius of any one State, but by the average genius of all.

NON-SECTARIAN SCHOOLS.

Fourth. The constitution wisely forbids Congress to make any laws respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism while each State is exposed to its particular domination. We therefore recommend that the constitution be so amended as to lay some prohibition upon the Legislature of each State, and to forbid the appropriation of public funds to the support of sectarian schools.

Fifth. We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be so discriminate as to favor American labor. That no further grant of the public domain should be made to any railroad or other corporation That slavery having perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American birth must be secured to citizens of American adoption. That it is the duty of Congress to develop and improve our water-courses and harbors, but we insist that further subsidies to private persons or corporations must cease. That the obligations to the men who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final victory Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people.

THE CHINESE PLANK

Sixth. Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and the treaty-making powers, that the Republican party, regarding the unrestricted immigration of the Chinese a matter of grave concernment and under the exercise of both these powers would limit and restrict that immigration by the enactment of such just, humane and reasonable laws and treaties as will produce that result.

Seventh. That the purity and patriotism which characterized the earlier career of Rutherford B. Hayes in peace and war, and which guided the thought of his immediate predecessor to him for a Presidential candidate, have continued to inspire him in his career as chief executive, and that history will accord to his administration the honors which are due to an efficient, just and courageous fulfillment of the public business, and will honor his interposition between the people and proposed partisan laws.

INIQUITIES OF THE DEMOCRACY.

Eighth. We charge upon the Democratic party the habitual sacrifice of justice and patriotism to a supreme and insatiable lust for office and patronage; that to obtain possession of the national and state governments and of the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrage; have devised fraudulent certificates and returns; have labored to unseat lawfully elected members of Congress, to secure at all hazards the vote of the majority of States in the House of Representatives; have endeavored to occupy by force and fraud places of trust given to others by the people of Maine, and rescued by the courage and action of Maine's patriotic sons; have by methods vicious in principal and tyrannical in practice, attached partisan legislation to appropriation bills; have crushed the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the war and to overcome its inestimable good results--freedom and individual equality We affirm it to be the duty and purpose of the Republican party to use all the legitimate means of this Union to secure the perfect harmony which may be practicable, and we submit to the practical, sensible people of the United State to say whether it would not be dangerous to the best interests of our country at this time to surrender the administration of the national government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.

REPUBLICAN STATE PLATFORM.

Resolved, That the platform of principles adopted by the National Republican Convention, at Chicago June last, deserves and receives the approval and hearty indorsement of all the Republicans of Nevada.

Resolved, That the hordes of Chinese that are coming in upon our shores to eat out our substance are destroying our country, impoverishing our mines, mining and laborers, debauching our youth, and making both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we pledge the entire strength of the Republican party.

In the language of our great leader, we regard the immigration of Asiatics to the United States as little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese Government fail to secure by the first of next January such modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the treaty then be promptly annulled, and such laws enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well-being of the Republic.

Resolved, That we most heartily indorse the general financial policy of the Republican party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our national credit to a height never before known, and to the restoration of a national prosperity. But we also demand the complete restoration of silver coin to its former position by the side of gold; and for the purpose of attaining that end we hold it to be the duty of the General Government, through the authorization of Congress, to coin into standard dollars or other legal tender currency, at the cost of coinage, and for the benefit of the producer, the entire silver product of the country, relieving the mining industry from the loss attending the shipment to and sale of silver bullion in foreign markets.

As mining for the precious metals is the leading industry of Nevada, we are inflexibly opposed to the bill reported by the Committee on Mines and Mining, and now before the House of Representatives, prohibiting the following of fissure veins or deposits beyond the vertical lines of surface boundaries; and we urge our Representatives in both Houses of Congress to continue their efforts for its defeat. Such a restriction would work disaster to the labors of the prospector, and seriously retard the development of the mineral riches of the West, and we cordially indorse the action of our Representative, the Hon. R. M. Daggett, in this behalf.

Resolved, That the Republican party claims it to be the right and duty of State and Territorial Legislatures to regulate and restrict the charges of railroads exclusively within their respective boundaries, and that it is no less the constitutional right than the positive duty of Congress to regulate the tariffs and restrict the charges of inter-State railroads.

Resolved, That while we congratulate the country on the successful resumption of specie payments, and the splendid financial condition of the Republic, we are in favor of restricting the issuance of National and State legal tender notes, to denominations of not less than five dollars, thus creating an increased home demand, as a circulating medium, for the precious metals which our mines are annually yielding.

Resolved, That Gen. James A. Garfield and Chester A. Arthur, by their services to the country, by their devotion to principle, and by their unspotted reputation as men and as citizens, are deserving of all the united and earnest support of all the loyal people of the United States for President and Vice President thereof. We rejoice in their nomination, and we pledge to them the electoral vote of Nevada at the ensuing election, by an overwhelming majority.

REPUBLICAN COUNTY PLATFORM.

Resolved, That we most heartily endorse the principles as enunciated by the National and State Republican Platforms.

Resolved, That we recognize in James A. Garfield and Chester A. Arthur, the Republican nominees for President and Vice President, pre-eminent worth and ability. Their past record, patriotism and services give assurance of their fitness for the positions to which they have been nominated, and that they should and will have our earnest and united support.

Resolved, That in R. M. Daggett the Republican party has given to the people of Nevada an able and industrious Representative, and in Wm. H. Beatty an honest and fearless Judge, and we will endeavor by united work to insure their re-election.

Resolved, That the Republican party ever has encouraged and supported free and intelligent labor, and ever will endeavor to restrain the unrestricted immigration of Chinese to our shores, and to promote the happiness and well-being of the laboring classes of this nation, and fully recognize the self-evident fact that our national growth, grandeur and prosperity are the results of free labor.

Resolved, That the principles of our government can only be upheld and perpetuated by a full, free and fair ballot, and that to secure and protect the right of suffrage to every citizen it is our duty to discountenance and condemn any violation or attempt at interference with this sacred right, and that every lawful measure should be invoked to secure his right to every citizen.

Resolved, That in view of the fact that the Republican party has ever been true to its trusts in the past, our national prosperity and welfare demand a continuation of its rule.

Resolved, That it is the first duty of every Republican to give his support only to men whom we are assured will guard and protect the interests of the people, and advance and promote the educational interests, and manufacturing, agricultural, mining and other industrial pursuits of our people.

Resolved, That the Republicans of Washoe County favor a change in the office of United States Senator, and that our Representatives and Senator be instructed to vote as a unit on all Senatorial questions, and endeavor to secure the election of a man whose home is in Nevada.

Resolved, That we pledge the Republican party to use every effort to reduce the expenses of our State government, and that we are opposed to the repeal of the County Salary Bill.

Resolved, That we are opposed to the so-called Drummer's License Law, and would recommend its repeal or the reduction of the license to five dollars per month.

Resolved, That the Republican party of Washoe County extends a cordial invitation to capitalists to come here and build quartz mills, open mines, run irrigating ditches and lay railroads, and we promise equal and exact justice and fair dealings to all.

Democratic Platform.

The Democracy of Washoe county in convention assembled declare as follows:

That we the Democracy of Washoe county, endorse and reaffirm the principles enunciated in the platform of the National Convention at Cincinnati, in June last, and also our State Convention at Winnemucca, and heartily approve the lines of government there marked out.

Resolved, That we recognize in our candidate for Congress, the Hon. W. Cassidy, an able statesman and tried gentleman, one who, as Senator in our councils has always fearlessly maintained our principles and labored for the best interests of our State and we pledge that if elected, among his first legislative acts shall be to introduce such a measure as will make completely operative and effective the plank of the National Platform which demands the prohibition of Chinese immigration, and that we invite to the support of our candidates every voter, of whatever political creed, who sincerely desires that our laboring classes may be forever relieved of the curse of coolie competition, and cite to them the fact that relief can only come from a Democratic Congress, and a Democratic President.

Resolved, That in the person of Judge C. H. Belknap we have an eminent jurist, one that is tried and true, and we point with pride to his past record.

Resolved, That the Democratic party has always maintained that none but residents of Nevada should represent her in the National council, and we deprecate the practice inaugurated by Jones and followed by Sharon, of corrupting, by the free use of money, the elective franchise of a free people, and we call upon all Democrats and honest Republicans to come boldly forward and assist in wiping out this stain upon the fair name of our young and growing State.
